

# Castor Leaf Extract - Ricinus Communis Linn

Ricinus communis · Euphorbiaceae

Extract powder   Water-dispersible

## 1. Product identification

|                          |                                                                                                                                                                                                   |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product name             | Castor Leaf Extract - Ricinus Communis Linn                                                                                                                                                       |
| Botanical name           | <i>Ricinus communis</i> (syn. <i>Ricinus africanus</i> , <i>Ricinus angulatus</i> , <i>Ricinus armatus</i> , <i>Ricinus atropurpureus</i> , <i>Ricinus badius</i> , <i>Ricinus borboniensis</i> ) |
| Plant family             | Euphorbiaceae                                                                                                                                                                                     |
| Common names             | Castor, Castor Seeds, Beej Arandi, Arandi Leaf, Castor Root, Arandimool                                                                                                                           |
| Indian / Ayurvedic names | Arand Mool, अरंडी, अरण्डी, एरंड, ஆமணக்கு மரம், ఆ మూల ము                                                                                                                                           |
| Plant part used          | Leaf                                                                                                                                                                                              |
| Product form             | Extract powder                                                                                                                                                                                    |
| Country of origin        | India                                                                                                                                                                                             |
| Product code (SKU base)  | 27219-EXTD10-RICOM                                                                                                                                                                                |

## 2. Composition and identifiers

INCI: Ricinus Communis Leaf Extract

| INCI / COMPONENT              | FUNCTION             | CAS | EC | PROPORTION |
|-------------------------------|----------------------|-----|----|------------|
| Ricinus Communis Leaf Extract | Botanical ingredient | —   | —  | 100 %      |

INCI status: INCI by naming convention (not in CosIng)

Where more than one CAS number is shown, the botanical substance is registered under several CAS numbers (e.g. EINECS and TSCA variants); all refer to the same INCI name.

## 3. Manufacturing

|           |                                                                          |
|-----------|--------------------------------------------------------------------------|
| Process   | Extraction, concentration and drying                                     |
| Ratio     | 10:1, 30:1 (choose when ordering)                                        |
| Additives | No added colours, fragrance or preservatives unless stated on the label. |

## 4. Typical properties

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Physical state      | Solid (powder)                                                            |
| Appearance / colour | Characteristic of the plant material; may vary naturally between harvests |
| Odour               | Characteristic                                                            |
| Solubility          | Water-dispersible                                                         |

Typical values describe the product type and are not a specification. Batch-specific results (assay, moisture, microbiology, heavy metals as applicable) are given on the Certificate of Analysis, available on request.

## 5. Applications and use

|                     |                                                                                                                                     |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Applications        | Skincare, Supplements                                                                                                               |
| Markets             | Cosmetics & personal care, Nutraceuticals                                                                                           |
| Suggested use level | Use according to the formulation; typical inclusion in cosmetics 1–10 %, in food and supplements as permitted by local regulations. |

The formulator is responsible for confirming suitability, stability and regulatory compliance of the finished product in the intended market. Not intended for direct medicinal use.

## 6. Packaging, storage and shelf life

|            |                                                                                                                                                                                 |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Pack sizes | 225 g, 1 Kg, 5 Kg, 25 Kg, Sample — bulk and custom quantities on request                                                                                                        |
| Storage    | Store in tightly closed original containers in a cool (below 25 °C), dry, well-ventilated place, away from direct sunlight, moisture, strong odours and incompatible materials. |
| Shelf life | 24 months from the date of manufacture in unopened original packaging stored as recommended.                                                                                    |

## 7. Documentation and quality

|                         |                                                                                 |
|-------------------------|---------------------------------------------------------------------------------|
| Safety Data Sheet       | SDS-27219-EXTD10-RICOM — available for download on the product page             |
| Certificate of Analysis | Batch-specific COA available on request                                         |
| Other documents         | Allergen, IFRA, origin and other statements on request, subject to availability |
