

# Mamejava PG Extract - Enicostemma Littorale

*Enicostema axillare littorale* · *Gentianaceae*

Propylene glycol extract    Water-soluble

## 1. Product identification

|                         |                                                                          |
|-------------------------|--------------------------------------------------------------------------|
| Product name            | Mamejava PG Extract - Enicostemma Littorale                              |
| Botanical name          | <i>Enicostema axillare littorale</i> (syn. <i>Enicostema littorale</i> ) |
| Plant family            | Gentianaceae                                                             |
| Common names            | Mamejava, Nahi, Maja-Makka Booti, Vellarugu, Vallari, White Head         |
| Plant part used         | Whole plant                                                              |
| Product form            | Propylene glycol extract                                                 |
| Country of origin       | India                                                                    |
| Product code (SKU base) | 79888-PGE-ENLIT                                                          |

## 2. Composition and identifiers

**INCI:** Propylene Glycol, Aqua, Enicostema Axillare Littorale Extract

| INCI / COMPONENT                      | FUNCTION          | CAS       | EC        | PROPORTION |
|---------------------------------------|-------------------|-----------|-----------|------------|
| Propylene Glycol                      | Solvent           | 57-55-6   | 200-338-0 | —          |
| Aqua                                  | Solvent           | 7732-18-5 | 231-791-2 | —          |
| Enicostema Axillare Littorale Extract | Botanical extract | —         | —         | —          |

Solvent system: Propylene glycol : water 70:30.

INCI status: INCI by naming convention (not in CosIng)

Where more than one CAS number is shown, the botanical substance is registered under several CAS numbers (e.g. EINECS and TSCA variants); all refer to the same INCI name.

## 3. Manufacturing

|           |                                                                          |
|-----------|--------------------------------------------------------------------------|
| Process   | Maceration in propylene glycol and water                                 |
| Additives | No added colours, fragrance or preservatives unless stated on the label. |

## 4. Typical properties

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Physical state      | Liquid                                                                    |
| Appearance / colour | Characteristic of the plant material; may vary naturally between harvests |
| Odour               | Characteristic                                                            |
| Solubility          | Water-soluble                                                             |

**Flash point**

Not flammable as supplied (aqueous solution); pure propylene glycol approx. 99 °C (closed cup)

Typical values describe the product type and are not a specification. Batch-specific results (assay, moisture, microbiology, heavy metals as applicable) are given on the Certificate of Analysis, available on request.

## 5. Applications and use

**Applications**

Skincare

**Markets**

Cosmetics & personal care

**Suggested use level**

Typical use level in cosmetics 1–10 % (water phase).

The formulator is responsible for confirming suitability, stability and regulatory compliance of the finished product in the intended market. Not intended for direct medicinal use.

## 6. Packaging, storage and shelf life

**Pack sizes**

225 g, 1 Kg, 5 Kg, 25 Kg — bulk and custom quantities on request

**Storage**

Store in tightly closed containers in a cool (below 25 °C), dry place away from direct sunlight. Hygroscopic — keep containers closed.

**Shelf life**

24 months from the date of manufacture in unopened original packaging stored as recommended.

## 7. Documentation and quality

**Safety Data Sheet**

SDS-79888-PGE-ENLIT — available for download on the product page

**Certificate of Analysis**

Batch-specific COA available on request

**Other documents**

Allergen, IFRA, origin and other statements on request, subject to availability
